The Mendelssohns, the Berlin bankers who have been for many years the representatives on the continent of the Russian Government and who have negotiated many of the Russian loans, have formed an alliance with the Rothschilds in respect to the matter and have held communications with all the leading financial institutions both on the continent and in England.

They are about to send their representatives to New York with a view of enilsting to co-operation of the larger financiers of the United States. CHICAGO, July 27.—Violence growing out of the teamsters' strike broke out afresh last night. A mob of nearly 1000 persons assaulted a carayan of wagons belonging to a wholesale grocery company while they were returning to the barns of the company. After beating one of the drivers into insensibility the wagon was driven away by the rioters and the horses turned loose. Two sets of new harness were stolen.

APPROVE KELLY'S BOND

Good Standing.

TOPEKA, Kan., July 27.—The State Executive Council this afternoon approved the bond of State Treasurer Thomas T. Kelly by a unanimous vote. The bond consists entirely of personal security and is for 3965,500. It was announced at the meeting of the board that E. E. Ames and J. T. Bradley, national bank examiners, had said the bond was a strong one. This ends the fight on the State Treasurer so far as present developments are concerned. The investigation into the State treasury conditions will be continued by the experts employed by the Governor. Gov. Hoch holds Kelly's resignation in escrow, which will be accepted if there are any irregularities found in the State treasury.

Scene of Action Concerning Uintah Opening Transferred to Utah-Clerks on the Way.

Special to The Tribune. WASHINGTON, July 27.-W. A. Rich ards, Commissioner General of the Land

Office, left this afternoon for Grand Junction, Colo., to personally supervise the registration for the drawing in connection with opening the Uintah reservation. His headquarters will be at Provo. Some severe telegrams have been pouring in upor him demanding an explanation of certain interviews published in the West. Mr. Richards thought he had been misquoted as to some of the terms used and then explained that the characters he referred to were a necessary svil in every large city and Salt Lake City and Denver had no occasion to be offended.

Is Plainly Embarrassed.

He was plainly embarrassed by the in-trylews. He sald he stood by what he had said to The Tribune correspondent concerning the character of the land in the reservation. He called in the agent who had been sent out to make the in-ventigation and asked him to state to The Tribune correspondent how many acres of the land was fit for homestead entry.

Figures Number of Homesteads.

The reply was that 100,000 acres out of the million would be a liberal estimate. Then the Commissioner figured out the number of homesicade, 100 acres each, that could be carved from the 100,000. There is nobody here officially capable of taking cognizance of the Land Commissioner's interview and the charges made against Richards as a result of it. Either President Roomovelt or Secretary Hitchcock must act in the matter and both are away from Washington.

Attorney Has Complaint.

LANDER Wyo, July 27—A P Batrum has returned from the vicinity of Gold-field, Nev where he went to relocate a gold tedge which he discovered in 1874 and abandoned because lack of transportation facilities made the working of the ore on a profitable basis an impossibility. Batrum found the ledge just as he had left it, not a human being apparently having visited it during the interval of more than three decades. He located several claims and expects to go to Nevada and work them as seen as he has disposed of his interests here During the day there was a heated con roversy between Lot L. Feltham of Weiser, attorney for Gideon, and United States Attorney Ruick Feltham com plained because an officer of the United States Marshal's office had interrupted a conference between himself and defendant and dragged the prisoner to the District Attorney's office for the purpose of sweating him. The District Attorney said the object was to search him as the search at Weiser was merely perfunctory.

Mormon settlers from other towns journeyed to Afton and Burlington and both celebrations were attended by large crowds. Religious services were held, followed by horse and foot racing and other forms of sport. The size of the attending crowds indicated the strength of the Mormons in this State. Feithits a Conference.

Feitham asked for an order from the court for permission to consult with the prisoner at will. To this Ruick objected, saying only United States Judge Beatty or himself could grant such permission. Later he permitted a conference between the prisoner and his attorney and the incident was dropped. The examination may continue several days.

Equitable Board Takes Up Pensions TO REPENTANCE!"

Some Cut Off, Others Reduced-Auditor's Report Shows an Increase of Business.

NEW YORK, July 27 .- The directors of the Equitable Life Assurance society held two meetings today, covering a period of three hours. The first was an adjourned session from yesterday, and the business included the election of George L. Vieter of this city and Ernest B. Kruttschnitt of

of this city and Ernest B. Kruttschnitt of New Orleans to the board. The office of chairman was abolished, as previously announced. The committee on pensions reported, and in almost every instance its recommendations were adopted.

A number of pensions will be discontinued entirely and others reduced to 50 per cent of salaries received by officials or employes at the time of the severance of their connections. It developed today that in addition to the pension of \$25,000 a year to the widow of Henry B. Hyde, there was voted at the same time a pension of \$18,000 to Mrs. James W. Alexander, the wife of the former president, to take effect upon the death of Mr. Alexander.

In Lieu of Contracts.

These two items have been regarded as legal annuities in lieu of certain contracts waived by the founder of the society and by Mr. Alexander. The matter will be submitted to the Equitable special counsel, Austin G. Fox and Wallace S. MacFarland. James H. Hyde was not present at today's meeting.

It was decided to hold the next convention of the union in Butte, July 23, 1905. This city will continue to be headquarters for the union.

HERDER SETS FOREST FIRE

Great Damage Being Done in Council Forest Reserve.

Special to The Tribune Special to The Tribune.

COUNCIL, Ida, July 27—A large forest fire is raging in the recently created forest reserve a few miles east of this place. The country affected is on the head waters of the East Fork Middle Fork, Cottonwood creek and Mill creek. A large portion of the timber land within the fire area has been proved up, on by claimants who located under the timber and stone act, but much is still Government property.

There is an immense body of timber there and unless the fire is checked great damage will be occasioned. That section is filled with sheep and there seems little doubt that the fire originated from some neglected campfire of a herder.

"PROPHET'S CALL

Grandson of Joseph Smith Cries Warning.

Shows That the Present **Leaders Are Not Legally** in Office.

He Declares That Unless Leaders and People Turn From Their Sins They Shall Be Scourged.

A grandson of Joseph Smith, the Mormon prophet, is calling on the Mormon people to repent of their sins; to obey the laws of God and of the nation; he warns them against the false leadership which has been set up over them; and he cries aloud to the leaders and people alike, to

turn from evil lest they be scourged. This prophet who has arisen to sound this warning is Frederick M. Smith, a member of the first presidency of the Re-organized Church of Jesus Christ of Latter-day Saints. His father, Joseph Smith is president of that church; and Joseph Smith, the present president, is a son of the original Joseph Smith.

and has issued the following open letter: To the People of the Church of Jesus

Frederick M. Smith is in Salt Lake City

Christ of Latter-Day Saints: As one of the seed of Joseph Smith, upor whose posterity was placed by the voice of prophecy a peculiar work, and as one of those who have been called to the mission of crying repentance to the world. I have been appointed to labor among you for a time; to call upon you to heed the prophecies and to warn you that the eventful day is at hand. The spirit of controversy is not upon me, and I feel moved to state in plainness and simplicity the word of warning which it has been given m to utter, leaving dispute to those who would bicker rather than believe, and leaving the reselves whether they will be true to the cover nants which God has made with his people in this dispensation, and which the people have

made with God. In 1841 the Lord said concerning Joseph Smith

For this anointing have I put upon his head, that his blessing shall also be put upon the head of his posterity after him, and as raid unto Abraham concerning the kindreds of the earth, even so I say unto my servant, Joseph, in they and in thy seed shall the kindred of the earth be blessed "-Doctrine and Cove-

nunts, 124: 57, 58; Utah edition. And Joseph Smith himself uttered this prophetic language, as recorded in Times and Seasons, vol. 5, p. 225;

While water runs and grass grows; while virtus is lovely and vice hateful; and while a stone points out a sacred spot where a fragment of American liberty once was, I or my posterity will plead the cause of injured inno

As one of the posterity of Joseph Smith, thus and by subsequent events consecrated to the furtherance of the work instituted by the Prophet Joseph Smith, I must cry out in warning to this people against the dangers into which they have been led by those who have professed to be the successors of Joseph Smith

in the prophetic office. The Lord has ordsined a method of succession in his church. Upon Joseph Smith the prophet and his seed the Lord, by repeated revelation, fixed the responsibility and the succession, and the prophet himself before his death blessed to become his successor his eldest son, Joseph Smith, who today holds the keys, and through whom alone, by the voice of inspiration, will the keys be handed down. The remnant of the church which remained in and around Nauvoo, after the exodus of that body which followed Brigham Young, held fast to the exact letter, believing that God would vivify it with the spirit in his own due time. After years of waiting, the prophet's son, the present Joseph Smith, went to the church, being called thereto by a revelation commanding him, and as prophet, seer and revelator of the Reorganized Church of Jesus Thrist of Latter-day Saints, he has adminis tered in his office, obeying the revelations. beying the laws of his country and seeking in his humble way to fulfill the destiny which was pronounced upon his head by his father, the prophet of the last dispensation, and to follow as nearly as possible in the footsteps of his Divine Master, the Redeemer of man-

kind. power came direct from heaven, as you know, to the Prophet Joseph Smith, Jr. No other man could have or has received the keys of this succession, except as the prophet ered those keys to his own son, according to

the word of God: No amount of world success and no length of history can sanctify illegal succession, as you well know. Otherwise the ancient churches, which have existed for many centuries, would have been legitimately empowered to administer the ordinances of God, and there would have been no need for a new

dispensation. Ever since the death of Joseph Smith, where is the good Mormon who has been reading the word of God as delivered to the world through his modern prophet, who has not held firmly to the belief that some time, in the Lord's own due time, some of the reed of Joseph Smith would lead the people of God in triumph back to Zion, as designated by the prophet and the holy word, and there redeem the land nascrated for the final gathering of his people? Had Brigham Young and his fellows re-mained true to their apostolic calling, carefully guarding the interests of the church, and had been free from aspiration and ambition to stand in the place of the seed of Joseph. and had thus awaited in patience the timwhen the Lord should bring one of the seed of Joseph to the church, today Mormonism, so called, would have been one of the leading re ligious influences of the United States and
